

Digital thermometer with interchangeable probe PRECISION PLUS

Digital thermometer PRECISION PLUS

The **Precision Plus** thermometer offers **high resolution** and **accuracy** for temperature measurement, with a range of **-199.99 to 199.99°C**, a **0.01°C resolution**, and **±0.05°C** accuracy (instrument only). It includes **max/min** functions to record temperatures during use and a Binder connector for various PT100 probes. Its ergonomic ABS housing incorporates [Biomaster](#) antibacterial protection and meets European Standard EN 13485. The **10 mm LCD** screen displays temperature, open circuit error, and low battery. Powered by three 1.5 V AAA batteries, it provides 2000 hours of battery life with auto-shutdown after 10 minutes (disableable).

It includes a 5-point UKAS certification, ensuring high accuracy.

This thermometer includes the [160-222 liquid probe](#)

Application: Laboratories, industrial thermometer
